c. General Counsel submitted an opinion (TAB C) which resulted in the discontinuation of further payments and the need of the Director's approval to authorize past payments.

3. CONCLUSION. -- Since the individuals involved have planned their living expenses on their belief they would be reimbursed by proper authorization, a genuine hardship would result in requiring repayment.

4. RECOMMENDATION. -- It is recommended that the payments of temporary lodging allowance through 25 September 1952 be approved and no action be taken to recover these payments.
